....HELP SHUT DOWN THE BIOFLEX SLAUGHTERHOUSE — JOIN P*A*W*N TODAY.....

Every day that BIOFLEX is open for business means MORE PEOPLE DEAD.

PAWN has a
question
for BIOFLEX:

WHAT THE HELL IS THIS?

ANTICITIZEN MILLS REPORTS.

SHOCKING PICS

taken inside the Bioflex
HQ building show a
bloodstained man in a
mask with a huge Bioflex
symbol on its face.

The pics were
snapped during a mid-
night espionage mission
by P-A-W-N soldiers.

Bioflex executives (or
should that be EXECU-
TIONIVES?) had no
comment to make when
PAWN exposed their sick
experiment to the world. It
is clear the Bioflex's man-
agement will not be able to
keep everyone in the dark
forever.

HAS BIOFLEX SOLD OUT TO THE HIGHEST BIDDER?

**Shocking pictures (LEFT) from the hushed-up CAMP
SLADDIN INCIDENT in Auckland New Zealand
(SEPT 2010) show CANNIBAL GHOULS like those
sighted in the UK. Have death-merchants Bioflex
sold "WhiteKnight" to the EnyoGeni corporation?**

PAWN are al-
lies of East
Anglian Anar-
chists Unite.

.....ROLL OF DISHONOUR.....

MONSTERS!!

1. "Doctor" Lars Emmerson. **#MISSING, PRESUMED DEAD#**
2. CEO Duncan Kramer **#DEAD#**
3. Felicity Rowan **#STILL AT LARGE#**
4. Unknown top-level Bioflex exec **#STILL ON THE LOOSE#**

Latest LIES from Bioflex:

From Bioflex's "press release" about the 'night of nightmares' which they released on the public in November: "The company has conducted a full investigation and concluded that the phenomena reported are part of delusional episodes experienced by the individuals concerned, probably due to ingesting spoiled meat." **WHY DO THEY EXPECT US TO BELIEVE THIS CONSTANT STREAM OF B.S.????!!!!**

DIRECT ACTION

YOUR MULTI-PART REVOLUTIONARY HAND-BOOK by anticitizen Joe "Dingo" Frobisher. (Real name concealed to prevent OTF reprisals).

"Here's what the user manual doesn't tell you: OTF killteams wear warzone-grade Kevlar armour which can stop high-cal Vulcan darts. MAV-6 darts will bounce off the pigs' hides like raindrops. Stripping out air-restrictors isn't enough; PAWN

anticitizens need a more stopping-power. Here's how you get it: unscrew the sides of your MAV's slide and remove it. Remove the metal rod in the slide housing and unscrew the main MAV casing. Inside the slide you'll find a plastic tube about the size of a small cigar. Insert a plastic straw through the length of this tube, then use a caulking gun to fill the REST of the 'cigar' tube AROUND THE STRAW with foam. Let it expand, dry out, and reassemble the casing. DEADLY. Enjoy the look on the fascist pig-cop's face when your powered-up MAV-6 blows a dinner-plate-sized hole in his torso."
